- ✓ MySQL

Professional Experience

Senior Software engineer

Shreyan IT Solutions Private Limited, Hyderabad, Telangana.

July-2019-Current

Projects

Project: Atom (Nov 2020 to till now)

Frontend Developer

Description: Comprehensive practice management application specifically designed for chartered accountants. This application aimed to streamline and enhance the daily operations and workflow of accounting professionals, enabling them to effectively manage their practice and deliver top-notch services to their clients.

Responsibilities

- I utilized my expertise in HTML, CSS, and JavaScript to develop a visually appealing, intuitive and user-friendly interface that catered to the unique needs of chartered accountants.
- Debugging and fixing defects reported by the QA team or end-users.
- Developing and implementing user interface components using React.js.
- Implementing user authentication and authorization mechanisms, such as JWT (JSON Web Tokens) or OAuth
- Used Material-UI and Bootstrap CSS frameworks to create attractive and user-friendly web applications
- Utilized RTK Query to simplify API integration and improve data fetching efficiency in web applications, resulting in faster and more responsive user experiences.
- Using version control systems such as Git to manage code repositories and collaborate with a development team.

Project: CMS Application (July 2019 to Nov 2020)

Development Support

Description: The objective of the project was to create a comprehensive online platform to efficiently manage administrative and academic activities within the autonomous college.

Responsibilities

- Involved in bug fixes for this application, collaborated with the development team to identify and address frontend bugs and issues in the college management system application, aiming to enhance functionality and user experience.
- Worked closely with UX/UI designers to address user interface issues and improve the overall usability and visual appeal of the application.
- Implemented timely bug fixes and patches to maintain the integrity and functionality of the front-end system. Maintained thorough documentation of bug fixes and resolutions for future reference and knowledge sharing within the team.

Education

JNTUH UNIVERSITY, JAGTIAL, TS

Bachelor of Technology

(INFORMATIOIN TECHNOLOGY).
